A Legacy of Commitment

Shelton Plumbing has stood the test of time – proudly serving the families and businesses of Waco, Texas for more than 30 years. The business and its 38 employees have deep roots in its community, supporting local organizations such as the Boys and Girls Club of Waco and Compassion Ministries of Waco – demonstrating its commitment to service.

This longevity and service to others reflects President Rick Shelton's legacy in the industry. Shelton is a second-generation tradesman, a licensed Responsible Master Plumber, and a proud member of many industry associations.

It was at one of those association events more than 20 years ago where Shelton met Joe Hodes, beginning a long-lasting business relationship – and friendship.

Getting Off the Ground

In 2005, when Hodes learned of Shelton's challenges implementing effective inventory control, he immediately recommended Hodes Co's fledgling Stock Service System. Hodes rented a U-Haul, loaded the Stock Service System's shelving units, and made the trek with his two oldest sons from Kansas City, Missouri to Waco, Texas.

Once the units and bins were installed, Shelton and his team followed the five steps to inventory control:

5 STEPS TO INVENTORY CONTROL

1. **Create space in your shop.** Establish a 15'x12' area in your warehouse that can hold the shelving and bins for your Stock Service System.
2. **Choose the right products to stock.** Select from a preset industry recommended list of 580 parts to guide your SKUs.
3. **Use the system.** Stock Service System tracking software and barcode scanning make it easy to add or deduct inventory. But it's got to be adhered to like any other core business function.
4. **Return unused stock.** Don't keep products on your shelves that don't sell. Send them back to Hodes Co. for full credit.
5. **Enjoy better cash flow and lower carrying costs.** Reduce the amount of labor spent ordering and stocking.

Expect cash flow to increase and profits to rise.

After implementation, Shelton's team benefited from immediate impact – achieving overall target billable rates of 60 percent or more. Plus, they rarely make special trips to supply houses, spending more time directly serving customers.

Fueling Growth, Passing the Torch

The impact of the Stock Service System was profound.

"The prices were better, so we started adding PVC and other products," Shelton said.

In fact, Shelton Plumbing quickly outgrew the initial shelving units, so Shelton bought the building next door to his first warehouse and moved the Stock Service System there.

HODES CO
PROFERRED PLUMBING PARTS

"It's even cleaner and better than those first units twenty years ago," said Shelton.

When a friend approached Shelton in early 2023 about buying his business, the individual, an electrician by trade, was immediately struck by the sophistication of inventory management.

"He asked how we keep guys out of the supply house, so I explained that the Stock Service System is a really good fit," Shelton said. "It made an impression that everything was in order – he was impressed by the scanner, too. I explained it's a good deal – otherwise, we wouldn't have kept using it for 18 years."

The Stock Service System helped Shelton feel comfortable selling, especially considering its ease of use.

"You don't need to be a plumber to go out to the warehouse and order," Shelton said. "In fact, I trained my daughter-in-law to order using the scanner and app – she makes sure the system keeps getting used."

> **"After implementation, we benefited from immediate impact – achieving overall target billable rates of 60 persent or more. Plus, we rarely make special trips to supply houses, spending more time directly serving customers."**
>
> **Rick Shelton - Shelton Plumbing**

Providing Peace of Mind

In the months following the sale of his business, Shelton has remained engaged in a consultative capacity but is looking forward to spending time with his growing family.

He and his wife, Fran, have three children and five grandchildren – three granddaughters and two grandsons, aged one through six – who keep them busy.

Whether spending time at their property in Crawford, at their lake house at Horseshoe Bay, or planning trips to Costa Rica and the British Virgin Islands, the Sheltons are ready to reap the benefits of growing their successful business.

Shelton is at peace with and proud of his professional legacy.

"Everyone at Shelton Plumbing is still there – and they're still happy," Shelton said. "In fact, they're already planning the company's traditional, big Christmas dinner."

Joe Hodes is the president of Hodes Co. and consults with plumbing shop owners across the country on inventory management and optimization. You can reach him by email at Joe@HodesCo.com or by phone at 816.914.5858.

MAGNUM™
HEAVY PATTERN MACHINE BRASS ROD SLIP JOINT NUTS WITH LEAK-FREE PREMIUM WASHER

Our nut is machined from brass rod stock, not cast. There are never any casting irregularities. The six large sides give your wrench a no slip surface with a much heavier, better chrome plating than die cast or cast brass. Buffed to a "clean" shine, this superior slip joint nut is another quality product of Hodesco.

Nuts packed 12 sets per heavy corrugated box and slip joint washers are included

HANDI LAV-GUARD INSULATION KIT

FINALLY, A COSMETICALLY APPEALING, DURABLE, HANDICAP LAVATORY INSULATION SYSTEM.

To satisfy current Federal mandated barrier-free and accessibility requirements, BOCA, ANSI and many state codes require that insulation must be applied over the hot water supply and waste piping under lavatories accessed by people with disabilities. These codes protect wheelchair users from being burned or sustaining injury from impact.

The Problem:
Until now, unsightly black extruded foam insulation with its poor fit and inadequate means of securing has been, for lack of a better product, the usual specification of architects and mechanical engineers. Even the most experienced insulator or plumber becomes frustrated with its time-consuming application and poor appearance.

The Solution:
The Handi Lav-Guard kit is a unique, fully molded, flexible vinyl insulation system which cushions impact and is an excellent insulator against burns. Its neutral white color blends nicely into the scheme of any restroom. The Handi Lav-Guard kit is an attractive, durable insulation system that meets virtually all building codes and aesthetic standards.

- Fast-installing antimicrobial molded undersink safety covers for ADA accessibility compliance
- Built in fasteners are quick, strong, and reusable
- Tear-to-fit trimming feature eliminates the need for tools

Never compromise quality when dealing with plumbing.

Made in USA

FLOW MASTER has not used "plastic nuts" for over 10 years.
Brass nuts are much harder to strip so the chances of a good tight seal are improved.

FLOW MASTER 3 ring "ACCU-CRIMP" has 3 seal bands to keep a tight water seal.
Many competitor's crimps offer "water channels" with crimp ridges running parallel to the hose.

Fluidmaster
Made in China,
5-year warranty

Homewerks Worldwide
Made in China,
Limited 1 year warranty,
Lowes

BrassCraft
Assembled in the USA,
Home Depot
Polymer material

FLOW MASTER
Made in the USA,
5-year warranty

Up to 44% longer barb and sleeve offers more contact area for a better seal of the ferrule and crimp

More surface area = more sealing area

	Barb Length	Sleeve Length	Difference	Percent Less Sealing Surface
Flow Master	1.28	.772	.508	
Homewerks	1.057	.738	.319	37.20
